13th IEEE SB Power Engineering Symposium on **THE DIGITAL SUBSTATION**

Wednesday, March 22th 2017, 14h-18h

AUD R, ESAT, Kasteelpark Arenberg 10, Heverlee

14h00 Welcome

14h10 Towards multi-vendor interoperability over systems lifecycle,
the ENTSO-E approach - **Grégory Huon, ENTSO-E**

14h50 Full use of digital technology in HV substations, from process
till control center - **Stefaan Vleeschouwers, ABB**

15h30 How to give the digital substation hands and feet -
Kim Vrancken, Eandis

16h10 Coffee Break

16h40 Smart secondary distribution substations, an SME perspective -
Rik Verheyen, Tom De Rybel, Bausch Datacom

17h20 IED development for grid automation with an open lab-scale
platform - **Filip Langenaken, NI**

18h00 Reception

Participation is free, registration required at <http://www.ieee-sb-leuven.be/>
